Eemshaven, Netherlands

Site Info

Full specification overleaf

Seaway7's Marine Base is located at the Beatrixhaven quay in the port of Eemshaven, Netherlands. In operation since 2016, the base has supported the majority of Seaway7's cable-related projects and is dedicated to vessel mobilization, maintenance, and storage of cable-lay and pull-in equipment. In 2024, a dedicated cable-spooling facility was added to the site.

Fast Facts

- Maintenance, mobilisation/demobilisation, and storage base for Seaway7 cable-lay and mission equipment.
- Supports the global Seaway7 fleet and Offshore Resources (OR).
- Strategically located with direct access to the North Sea.
- Dedicated cable spool yard.

Eemshaven Marine Base

Facilities

The buildings consists of an office, workshop, warehouse and a large 3,000m² paved yard which is adjacent to the quayside. An additional 11,000m² is used as cable spool yard.

Office

The office spans two floors and overlooks the quay. It features three private offices and two open-plan areas with a total of 12 workstations. Additionally, there is a small reception area that also serves as a canteen.

Workshop

The workshop is approximately 150m² including an electrical, hydraulic and a welding workshop to support a range of operations and challenges.

The workshop is manned by a team of competent and experienced personnel and a second workshop is available for grinding and cleaning purposes.

Warehouse

The warehouse covers approximately 3,500m² and serves as the central location for receiving goods for all EU- projects and vessels. In addition, it is used for various purposes such as project preparation and the storage of vessel and mobile equipment. The outside storage area is approximately 3,000m², with additional space available on project demand
3500m² inside
3000m² outside
2x 150m² temperature controlled

Terminal equipment

In the warehouse, there are three forklifts ranging from 3.5t to 16t one of which is an electric forklift for indoor use.

Through the landlord, additional terminal equipment is available, including a variety of forklifts, several 45-ton reach stackers, and two Liebherr harbour cranes (models 320 and 550)

Personnel, forklifts and cranes are available 24 hours a day, if required.

Capabilities

The Eemshaven base supports operations in the North Sea for the UK, Dutch, German, and Baltic sectors. It also supports Seaway7's global operations, including the storage and maintenance of equipment and project-related materials.

With its highly competent and experienced team comprising logistics personnel, warehouse technicians, port call/warehouse coordinators, and HSEQ specialists the base has a proven track record of safely delivering projects on time.

Transport links

The port of Eemshaven is located in a convenient and easily accessible business district. It is a 30 minute drive by car from Groningen City Centre.

The closest airport is Groningen Airport Eelde
(taxi ride is approximately 40 minutes).

Car parking

Visitor parking is available onsite for 12 cars.

Car parking and building access for both Seaway7 personnel and visitors is in the front of the main entrance.

Spool yard overview incl. carousels 7000t and 10.000t

Part of the warehouse (inside storage ~3500m²) and offices with adjacent terrain ~ 3000m²
